Advance notice

WORLD'S LEADING SMOKING CESSATION CONFERENCE

Monday 26th and Tuesday 27th June 2006, The Sage, Gateshead, Tyne and Wear, UK

You're invited to a highly informative smoking cessation conference where experts from around the world will be talking about results from the latest research, hot topics in smoking cessation, new ideas, policy and new practices.

Let us know if you can attend – this is a chance to interview and question world experts and report on the latest findings.

Topics on 26 and 27th June include:

- **Giving smokers nicotine while still smoking to help quit: new findings**
*Professor John Hughes, Department of Psychiatry, University of Vermont, USA and
Dr Ann McNeill, Honorary Senior Research Fellow, UCL*
- **Smokeless tobacco: a new opportunity**
*Jonathon Foulds, Associate Professor, University of Medicine and Dentistry of New Jersey;
Director, Tobacco Dependence Program, USA*
- **The future: new medications – too good to be true?**
*Professor John Hughes, Department of Psychiatry, University of Vermont, USA and
Professor Robert West, Director of Tobacco Studies, Cancer Research UK*
- **A chance to save 200,000 lives – implications of a smoke-free future**
*Dr Andrew Hyland, Associate Member, Roswell Park Cancer Institute USA and
Professor Robert West, Director of Tobacco Studies, Cancer Research UK*
- **Smoking treatment and inequalities in health – what's the problem?**
Dr Linda Bauld, Senior Lecturer in Public Policy at the University of Glasgow
